

*The Jack Russell Terrier will stand on his front legs to mark his territory higher so that dogs that follow deduce a larger dog and therefore, a larger threat.*

**WHEN YOU'RE SMALLER, YOU HAVE TO BE SMARTER.**

*When you run a small business, being smart isn't a matter of choice. It's a matter of survival. At OneWorld Systems, we design network communications appliances specifically for small businesses. Handle all your Internet access, remote access and faxing through one integrated system, just by pointing and clicking—whether you're in a Windows, Macintosh or cross-platform environment. What's more, you can upgrade and expand. So when your business grows, you don't have to throw everything out and start over. And since our network appliances can reduce the number of phone lines you need, they'll also cut your phone bill. Music to the ears of any small business owner. Visit [info.oneworldsystems.com](http://info.oneworldsystems.com) or call 800-314-4926 today. After all, why put off being smart until tomorrow?*
